OIL FIELDS

1996.3.3.17

This has been the coldest month of May in twenty years, and the lowest mean temperatures in that time for the month of May. May 27, 1905, it rained .72 inches. May 27, 1906, it rained .83 inches.

The rainfall for January has already reached 13 inches, which breaks the long standing record for forty-nine years. In January of 1862 we had 24 inches of rain, which figure will probably stand as the record for some time.
